

Color & Cut Demo

with Thomas Cousins

Join Thomas as he demonstrates current color trends and complimentary haircut to enhance your color application.

Though Thomas Cousins grew up around the industry— his father was a hairstylist for 48 years—he did not see himself following in his footsteps at first. It took two years in college and serving in the Air Force National Guard to realize he wanted a job that he could truly make into a career. But once he got into cosmetology school, he fell in love with the art of the business. He believes education is the driving force of the industry. He became a part of the Paul Mitchell® Platform Artist Club after years of being a local PM Educator.
